

JOURNAL OF STATISTICAL RESEARCH CALL FOR PAPERS

Institute of Statistical Research and Training (ISRT)
University of Dhaka

STATISTICS: OPPORTUNITIES AND NEW CHALLENGES

The Journal of Statistical Research (JSR) invites manuscripts for a special issue to celebrate the 100-year founding anniversary of the University of Dhaka, 50th year of independence of Bangladesh, and JSR's 50th year of publication. To memorialize these milestone anniversaries, the JSR will publish the special issue on the theme Statistics: Opportunities and New Challenges. The special issue will be dedicated to original research articles in the areas of both theoretical and applied statistics. The anticipated publication date for this issue is June 2021 (Volume 55, Number 1).

AIMS AND SCOPE

Influence methodological aspects of statistics through the publication of original contributions in the development, improvement, or understanding of statistical theory. Methodological submissions are expected to describe new or improved methods of data analysis with analytical and/or simulation-based validation with a comparison to existing methods, and a discussion on how the proposed method will impact the practice of statistics.

Encourage exciting and innovative applications of advanced statistical methods through the publication of challenging innovative practices that examines new methods and demonstrates their application through motivating examples from real experimental or observational studies. Applications submissions are expected to investigate interesting research questions that solve important problems in society.

Educate the statistics and other research communities by publishing reviews of, and tutorials on contemporary statistical methods.

Manuscript Submission Deadline
01 March 2021

SPECIAL ISSUE EDITORIAL BOARD

M. Ataharul Islam, University of Dhaka, Bangladesh
Sanjoy K. Sinha, Carleton University, Canada
Abdus S. Wahed, University of Pittsburgh, USA

WHY SUBMIT TO JSR

VISIBILITY: JSR publishes articles from world's renowned statisticians. Your article will appear in that peer group.

FAST REVIEW: First review results are provided within approximately three months of electronic submission.

ONLINE ACCESS: Articles are made available online simultaneously with the published paper.

Current issue of JSR

SUBMISSION INSTRUCTIONS

Authors interested in contributing to this special issue should prepare manuscripts following the submission guidelines of the JSR, which can be accessed at <http://jsr.isrt.ac.bd/>.

Two copies (PDF) of the manuscript, one with the author information and the other without author information (to facilitate double-blind peer review) should be sent to JSRsubmit@isrt.ac.bd. A LaTeX source file of the accepted manuscript should be provided.

All submissions will be received, reviewed, and managed by the JSR editorial policy. When submitting the manuscript, please indicate that your manuscript is intended for the special issue. For further information on the JSR and its submission process, please visit the journal website <http://jsr.isrt.ac.bd/> or contact any of the editors.
